

IWK FP10 + IWK VI5

IWK COMPACT TUBE FILLING LINE

FOR TUBE PACKAGING ON UNBEATABLE FLOORSPACE (<6m)

IWK
AN **ATS** COMPANY

FLEXIBLE,
COMPACT,
COST-EFFECTIVE

IWK FP 10

IWK VI 5

YOUR PERFECT MATCH!

You need a reliable solution for tube filling and direct cartoning?

Then the COMPACT TUBE FILLING LINE is the perfect match for you! The filling platform FP 10 in combination with the vertical cartoning machine VI 5 is a compact solution with a small footprint. The line fills and cartons 70 tubes per minute and offers the flexibility to process tubes made of mono-plastic, laminate and metal. One machine control system simplifies configuration and production.

SPECIAL ADVANTAGES:

Tube filler FP 10

- Easy and repeatable changeover in less than 10 minutes
- Fully servo driven machine of optimal fill-results for different products
- Feasible to run all tube closure on one machine
- 25% less energy consumption to comparable machines

Cartoner VI 5

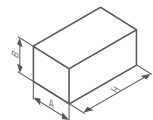

- No adjustment of carton guides for different formats
- Carton erection regardless of opening direction
- Universal closure for tuck & glue cartons

Tube dimensions:

Tube diameter	10 - 52 mm (plastic/laminate) 10 - 40 mm (metal)
Tube length	60 - 250 mm
Filling volume	1,5 - 350 ml

Folding boxes:

A	25 - 100 mm
B	20 - 90 mm
C	50 - 230 mm

Performance:

Speed	Up to 70 tubes per minute
Footprint	Total length < 6 m
Option	Static checkweigher
